

Storied Wheels

Mostly true stories about our love of rolling...

Contributed by members and friends of SOMOS

Who doesn't have a story about their set of wheels? All Americans are identified with their cars; but in Taos, those stories take on the flavor of the vortex in which we live. This collection of stories stretches across harrowing road trips and arrives safely at gratitude for the kindness of strangers on foreign and domestic roads. From fond remembrances of family vacations to getting that first car at the age of 40, there's something in *Storied Wheels* for the car lover, traveler, and rolling romantic in all of us.

The perfect gift for: a) Taos aficionados, b) car fanatics, c) short story connoisseurs.
